

Environmental

We are and committed to conducting training in a manner compatible with the environment. Part of our mission is to prevent pollution, protect the environment and protect natural, historical and cultural resources.

Environmental Policy

Throughout the span of our activities, we consider environmental stewardship an integral part of productivity and providing quality services. In recognition of this responsibility to Sea Cadets, family, sailors, customers, neighbors, and others, we commit to:

- Being an environmentally responsible neighbor where we operate to ensure public health and safety and protection of the environment;
- Preserve significant aspects of the natural and cultural environment;
- Use sustainable resources to modernize the ship and the shore-side infrastructure;
- Conserve natural resources by reducing, reusing, and recycling materials; and purchase products made from recycled materials;
- Develop and improve operations and technologies that minimize waste; prevent air and water pollution; minimize health and safety risks; and dispose of waste safely and responsibly;
- Ensure the responsible use of energy and water, including conservation and improved efficiency;
- Share appropriate pollution prevention technologies, knowledge and methods;
- Participate in efforts to improve environmental protection and understanding in our communities;
- Adhere with applicable environmental federal, state, and local regulations; and
- Ensure this policy is communicated to all Sea Cadet, personnel, and contractors to encourage continual improvement within the area.
